Active EMF Protection

Home, Workplace, Out & About

PREMIUM Range – RECOMMENDED

Home & Workplace
Blushield Premium Ultra

Further enhanced with Blushield's proprietary formula. Twice the strength of the Premium Cube, the Premium Ultra with 4 international plugs has a 90-metre radius in all directions. Recommended for many homes, with solar panels, smart meters in close proximity to antennas, and high-rise apartments and workplaces.

D 140mm x 100mm x 40mm, W 390g.

Home & Workplace
Blushield Premium Cube

Due to its enhanced proprietary formula, the Premium Cube is recommended as the minimum for most homes today. With 4 international plugs and a 90-metre radius in all directions, it is recommended for homes and schools with medium to high EMF, in line-of-sight of antennas, with smart meters and solar panels.

D 115mm x 100mm x 100mm, W 650g.

Out & About
U1 Premium Portable

Stronger than the white Portable, and lighter than the Premium Portable, the first and only Blushield Portable to be further enhanced with Blushield's proprietary formula. With a five-metre radius in all directions place in your pocket or bag when away from your home and workplace Bluzone.

D 100mm x 60mm x 13 mm, W 96g.

TESLA Range

Home & Workplace
Blushield Tesla Ultra

The Ultra comes with 4 international plug types, has a 90 metre radius in all directions, and is twice the strength of the Cube for ultra high EMF environments. Recommended for many homes, high-rise apartments, workplaces with solar panels, smart meters, smart meter grids, and in close proximity to antennas.

D 140mm x 100mm x 40mm, W 390g.

Home
Blushield Tesla Cube

The Cube with 4 international plugs has a 90 metre radius in all directions and is twice the strength of the Plug-in. The Cube is recommended for schools and homes with solar panels, smart meters, and in line-of-sight of antennas. Most homes require the Tesla Cube as a minimum as strength is more important than the radius.

D 115mm x 100mm x 100mm, W 250g.

Home
Blushield Tesla Plug-in

The Plug-in model comes with 4 international plug types and has a 45 metre radius area in all directions. This model is recommended for homes with low EMF, for those very sick, the elderly, and for some EMI (Electro Magnetic Illness) sufferers to commence on.

D 90mm x 35mm x 45mm, W 75g.

PREMIUM
Out & About
Blushield Premium Portable

Stronger than the white Portable, the Premium Portable has a five-metre radius in all directions. Place in your pocket or bag when away from your home and workplace Bluzone.

D 100mm x 60mm x 10mm, W 175g.

Out & About
Blushield Tesla Portable

The white Portable has a three-metre radius in all directions. Place in your pocket or bag when out & about when away from your home and workplace Bluzone.

D 80mm x 50mm x 8mm, W 45g.

RECOMMENDED

In Your Car
Blushield Tesla Auto

The Auto is recommended for all vehicles, especially while using mobile phones and other wireless technologies. The Auto model has a 15 metre radius in all directions.

D 80mm x 80mm x 35mm, W 125g.
