### Home or Workplace

**B1 Ultimate Cube**  
Protection Strength 8

The Ultimate Cube is stronger than the U2 and B1 models with 4 international plugs and a 120 metre radius in all directions. Recommended for high-density environments which can include: homes with wi-fi, with or close to solar panels, smart meters, high-rise apartments, workplaces and those in close proximity to antennas, shopping centres, substations, and smart meter grids.

D 100mm x 100mm  
x 100mm, W 740g

**Covers 3G, 4G, 4G+ and 5G**

Further enhanced with Blushield's proprietary formula. The Ultimate U2 Ultra, twice the strength of the Ultimate B1 Cube, with 4 international plugs has a 90 metre radius in all directions. Recommended for many homes, including those with wi-fi, with or close to solar panels, smart meters, in close proximity to antennas, high-rise apartments, and workplaces.

D 140mm x 100mm  
x 40mm, W 380g

**Covers 3G, 4G, 4G+ and 5G**

Further enhanced with Blushield's proprietary formula. The B1 Ultimate Cube is recommended as the minimum for most homes today. With 4 international plugs and a 90 metre radius in all directions, it is recommended for schools, and homes with wi-fi, with or close to solar panels, smart meters, and in line-of-sight of antennas.

D 115mm x 100mm  
x 100mm, W 690g

**Covers 3G, 4G, 4G+ and 5G**

## Active EMF Protection Home, Workplace, Out & About

Some Homes

### Phi Hex Cube – Medium EMF

The Phi Series Hex Cube 03 model protects a sphere area up to 180 metres in diameter (90 metres in every direction) and is suitable for areas exposed to medium levels of EMF and 5G. The diameters are large however it is the strength of the device that suits your EMF environment that is more important. The Hex Cube can be plugged into a central location or allow 1 Hex Cube per floor for better coverage. Twice the strength of the Phi Plug-In.  
D 100mm x 100mm x 35mm, W150g

Protection Strength – 7

Some Homes

### Phi Plug-In – Low EMF

The Phi Plug-In model protects a sphere area up to 90 metres in diameter (45 metres in every direction) and is suitable for areas exposed to low levels of 5G and EMF. The diameters are large however it is the strength of the device that suits your EMF environment that is most important. The Plug-In can be plugged into a central location or allow 1 Plug-In per floor for better coverage. For medium levels of 5G and EMF, we recommend the Hex Cube 03 model.  
D 90mm x 30mm x 40mm, W 75g

Protection Strength – 6

### Phi Mobile Portable

To maintain 24/7/365 protection while travelling with your mobile phones and to and from your Blushield protected home and workplace zones, we recommend purchasing the Phi Series 01 Portable model or the Ultimate Portables which are stronger like all products in the Ultimate range. The mobile devices along with the home devices maintain you in the coherent Blushield field 24/7/365.  
D 80mm x 30mm x 11mm W 35g

Protection Strength – 4

**For HIGH to VERY HIGH EMF protection the ULTIMATE series is recommended.**

**BLUSHIELD is the only technology that addresses the scalar information component that is really doing the damage from EMF**

Through the extraordinary life-changing discoveries of Nikola Tesla and Albert Einstein, we now know that Nature uses scalar waves to constantly send us life-supporting frequencies to enable us to survive, reproduce, repair, and heal. Today we are exposed all day and all night to humanmade artificial chaotic frequencies from radio waves, microwaves, and millimeter waves from our modern-day EMF technologies. Even if you do not have obvious symptoms today, EMF is affecting all of us as exposure is cumulative. Avoiding going over your personal EMF tipping point is crucial.

**To assist us to function and thrive how we were meant to, as Nature would only use the best technology, Blushield also uses scalar waves with life-supporting frequencies, gently placing us in a coherent field.**

Symptoms of EMF exposure include: Headaches, Difficulty Concentrating, Tinnitus, Dizziness, Memory Loss, Hearing Loss, Nausea, Brain Damage, Irregular Sleep Pattern, Skin Rash, Mood Disorder, Insomnia, Itchy Skin, Personality Disorder, Chronic Fatigue, Burning Skin, Sensation Increased Irritability, Deteriorating Vision, Tingling Sensation, Decreasing Trust in People, Pressure in/behind eyes, Tremors, Depression, Eye Damage, Muscle Spasms, Anxiety, Cataracts, Muscle and Joint Pain, ADHD/ADD, Immune Abnormalities, Restless Leg Syndrome, Digestive Issues, Altered Sugar Metabolism, Foot Issues, Abdominal Pain, Asthma Attacks, Low/High Pressure, Enlarged Thyroid, Bronchitis, Facial Flushing, Hair Loss, Pneumonia, Dehydration, Testicular/Ovarian Pain, Low Inflamed Sinuses, Redistribution of Heavy Metals, Sperm Motility, Chest Pain/Pressure, Leukemia, Miscarriage, Heart Arrhythmia, Lymphoma, Electromagnetic Sensitivity, Heart Palpitations [www.magdahavas.com](http://www.magdahavas.com)

Putting **Wi-Fi** in schools; allowing **cordless phones** that radiate constantly to be manufactured; placing **wireless baby monitors** near an infant; using a **wireless tablet, smart phone or computer** while pregnant; holding a cell phone next to the head and keeping a **cell phone** in a bra or hip pocket or under a pillow; placing **cell phone antennas** near homes, schools and on hospitals; metering electricity, water and gas with **wireless smart meters** and designing **smart appliances** for the home will be viewed by future generations as **dumb technology** generated by greed for a population that is largely ignorant of the consequences. We need to protect the health and wellbeing of future generations, because without them, there is no future! If we don't do it ... who will?
