

EVO SERIES

Home or Workplace
Optimised Protection

EVO Pyramid

The EVO Pyramid while optimised, is further enhanced due to its pyramid design. While providing the original first of its kind EMF protection, the EVO Pyramid also provides extra support with sleep, relaxation, and mental agility. Recommended for offices, factories, schools and high-density areas, and homes close to many antennas, 5G antennas, with large numbers of solar panels. With 4 international plugs and spanning a 350 metre diameter sphere, simply plug in and turn on at the wall socket.

D: 200mm x 200mm x 130mm
Weight 1.2kg

Home or Workplace
Very High EMF

EVO Portable

The EVO Portable is further optimised and stronger than the Ultimate Series Portable. To stay in the bluzone when away from your home and workplace, simply place in your pocket or handbag. ON/OFF switch.

D: 100mm x 60mm x 13mm
Weight 120g

Home or Workplace
Very High EMF

EVO

With 4 international plugs and spanning up to 350 metre diameter sphere, recommended for workplaces, high-density living, excessive SMART homes and excessive environments.

D 150mm x 150mm x 150mm
Weight 1.8 kg

Ultimate Series

Home or Workplace
High EMF

Ultimate C1 Cube

The Ultimate C1 Cube is stronger than the B1 Cube model with 4 international plugs and spanning up to 320 metre diameter sphere.

Recommended for high-density environments which can include: homes with wi-fi, with or close to solar panels, smart meters, high-rise apartments, workplaces, and those in close proximity to antennas, shopping centres, substations, and smart meter grids.

D 100mm x 100mm x 100mm
Weight 750g

On the Go
Mobile Protection

Ultimate Portable

Further enhanced with Blushield's proprietary formula. Place in your pocket or carry bag when out and about away from your home and workplace bluzone. ON/OFF switch.

D 100mm x 60mm x 9mm
Weight 85g

Home or Workplace
Moderate EMF

Ultimate B1 Cube

Further enhanced with Blushield's proprietary formula. The Ultimate B1 Cube is recommended as the minimum for most homes today.

With 4 international plugs and spanning up to 280 metre diameter sphere, it is recommended for primary schools and homes with Wi-Fi.

D 115mm x 100mm x 100mm
Weight 700g

Blushield

Active EMF Protection Home, Workplace, On the Go

Some Homes

Phi Hex Cube – Low Exposure

The Phi series Hex Cube 03 model spans up to 240 metre diameter sphere. Twice the strength of the Phi Plug-in, recommended for low-level EMF homes and kindergartens.

The Hex Cube can be plugged into a central location or allow 1 Hex Cube per floor for better coverage. Twice the strength of the Phi Plug-in.

D 100mm x 100mm x 35mm
Weight 150g

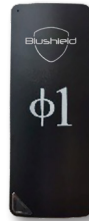

Some Homes

Phi Plug-In – Very Low Exposure

The Phi Plug-in 02 model spans up to 120 metre diameter sphere.

D 90mm x 30mm x 40mm
Weight 75g

Phi Portable

To maintain protection while travelling with your mobile phones and to and from your Blushield protected home and workplace zones, we recommend purchasing the Phi Series 01 Portable model. The mobile devices along with the home devices maintain you in the coherent Blushield field 24/7/365.

D 80mm x 30mm x 11mm
Weight 35g

It is the strength of the device that suits your EMF environment that is most important.

For MODERATE to VERY HIGH EMF protection the ULTIMATE and EVO series are recommended.

BLUSHIELD is the only technology that addresses the information component that is doing most of the damage from EMF

Through the extraordinary life-changing discoveries of Nikola Tesla and Albert Einstein, we now know that Nature uses scalar waves to constantly send us life-supporting frequencies to enable us to survive, reproduce, repair, and heal. Today we are exposed all day and all night to humanmade artificial chaotic frequencies from radio waves, microwaves, and millimeter waves from our modern-day EMF technologies. Even if you do not have obvious symptoms today, EMF is affecting all of us as exposure is cumulative. Avoiding going over your personal EMF tipping point is crucial.

To assist us to function and thrive how we were meant to, as Nature would only use the best technology, Blushield also uses scalar waves with life-supporting frequencies, gently placing us in a coherent field.

Symptoms of EMF exposure include: Headaches, Difficulty Concentrating, Tinnitus, Dizziness, Memory Loss, Hearing Loss, Nausea, Brain Damage, Irregular Sleep Pattern, Skin Rash, Mood Disorder, Insomnia, Itchy Skin, Personality Disorder, Chronic Fatigue, Burning Skin, Sensation Increased Irritability, Deteriorating Vision, Tingling Sensation, Decreasing Trust in People, Pressure in/behind eyes, Tremors, Depression, Eye Damage, Muscle Spasms, Anxiety, Cataracts, Muscle and Joint Pain, ADHD/ADD, Immune Abnormalities, Restless Leg Syndrome, Digestive Issues, Altered Sugar Metabolism, Foot Issues, Abdominal Pain, Asthma Attacks, Low/High Pressure, Enlarged Thyroid, Bronchitis, Facial Flushing, Hair Loss, Pneumonia, Dehydration, Testicular/Ovarian Pain, Low Inflamed Sinuses, Redistribution of Heavy Metals, Sperm Motility, Chest Pain/Pressure, Leukemia, Miscarriage, Heart Arrhythmia, Lymphoma, Electromagnetic Sensitivity, Heart Palpitations www.magdahavas.com

Putting **Wi-Fi** in schools; allowing **cordless phones** that radiate constantly to be manufactured; placing **wireless baby monitors** near an infant; using a **wireless tablet, smart phone or computer** while pregnant; holding a cell phone next to the head and keeping a **cell phone** in a bra or hip pocket or under a pillow; placing **cell phone antennas** near homes, schools and on hospitals; metering electricity, water and gas with **wireless smart meters** and designing **smart appliances** for the home will be viewed by future generations as **dumb technology** generated by greed for a population that is largely ignorant of the consequences. We need to protect the health and wellbeing of future generations, because without them, there is no future! If we don't do it ... who will?
